Tea Workshop

Annual Exam

Greetings from BBC !

We reflect on the exciting events and activities that took place during the month of March .

From fostering values to exploring new skills, our students have had a month filled with learning, growth, and fun.

Our Value Camp was memorable, with students participating in engaging activities and workshops designed to instill essential life skills, such as teamwork, empathy, and self-awareness. These interactive sessions helped our students develop into compassionate and responsible individuals.

The Tea Workshop was a unique experience for our students, where they learned about the art of tea-making and explored their creative side. They even got to enjoy a refreshing cup of tea together, savoring the warmth and camaraderie of the moment.

We celebrated the achievements of our club members during the Club Valediction ceremony, where students showcased their talents, shared their experiences, and received recognition for their hard work and dedication.

Our students have been diligently preparing for their annual exams, demonstrating their commitment to academic excellence. We are confident that their hard work and perseverance will yield excellent results.

The month of March has been an eventful one, and we are grateful for the support of our parents, teachers, and staff.
